WORK EXPERIENCES

Software Developer - Ramaplast S.p.A.   09/2021 - Present

I develop websites and useful software for the company, using .NET 6.0, to enhance the company's production value and organization processes. I also run a IT support desk to solve hardware and software related issues, slowdowns and system errors.

Game Tester - Until The Last Plane   09/2020 - 06/2021

Game tester for CarloC's "Until The Last Plane" indie video game. I tested the main gameplay loop, all the game mechanics and pointed out bugs, graphic and sound errors in the game.

Formative internship - RSE Lab, Milan   04/2019 - 11/2019

I took part in a curricular internship offered by the Transmissions and Distribution department of the RSE (Ricerca Sistema Energetico) Laboratory in Milan, Italy, where I developed a syslog-ng filter integration for the Elastic stack using Docker containers, in order to collect, store and monitor the syslog messages from the laboratory.
